

Messenger Wireless Pull Cord

The Messenger wireless, battery-powered pull cord kit includes faceplate, transmitter board and gang box. The pull cord can be used with the MainStreet Messenger and Voice Messenger in-room units, the System 200 common area receiver, and the System 20 wireless emergency call system.

Activation

When pulled, the Messenger emergency pull cord will transmit a signal to the Messenger system or Common Area unit. The unit will then send a “help needed” signal to the central monitoring station.

Applications

Typical locations where the pull cord can be used include:

- Resident Bathrooms
- Public Bathrooms
- Larger Public Areas
- Various areas of Large Apartments
